## COAST CLIPPINGS.

Susieville has a girl sixteen years old who weighs 270 pounds.

There is no criminal business in any of the Justice Courts of Storey county.

Hole quartz mines have been discovered ten miles west of Glen Station, on the Utah and Northern.

A cave, the extent of which is not yet known, was recently discovered in the mountains west of Socorro, N. M.

It is reported that a mysterious disease is at present prevailing among the cattle and horses along the San Pedro, Arizona.

Some miners near Butte have named a mine the "Crank" because it was discovered the day Guitou was sentenced.

The Northern Pacific trestlework across Marmot Gulch, at the entrance to Coriacosa dale, M. T., will be 800 feet long and 225 feet high.

Mark Stuart, while trimming a fir tree on his place near Portland, died on one of the branches. His friends, searching for him, found him lying across a limb dead.

The Yuma Free Press states that the steamer Mojave, on her last trip up the Colorado River, took 44,000 pounds of grain and merchandise, and 10,000 pounds of machinery.

A little daughter of Mr. Brogan, who lives near Cordelir, Solano county, Cal., was badly burned last week by her clothes taking fire when she was standing by the open fireplace.

Monday, at Cogging's Mill, Clackamas county, Oregon, J. J. Farrell, owner of a sawmill, while digging a bank for a millrace, was crushed by a falling embankment. Death resulted in three hours.

William Smothers, who killed a Chinaman at Nevada City Saturday, claims that the whole affair is a mystery to him, and he has no remembrance of the shooting. He was intoxicated at the time.

A large meeting was held at San Luis Obispo Saturday evening, on the occasion of an address before the Land League by Hon. T. P. O'Connor, M. P. One thousand dollars was collected and sent forward.

The Benton, M. T., Record says: A rumor has reached Sun River Crossing to the effect that a fight took place at Fort McLeod lately between the Mounted Police and the Blackfeet Indians, and that two of the former were killed.

The Yreka Journal says: In different parts of the country white men are jumping Chinese claims since Judge Steele's decision against the right of Chinese to secure patents either personally or by power of attorney.

Large tule fires were raging in several of the Sacramento River islands last week. West's Island was almost entirely denuded of vegetation. The air was filled with flying cinders and smoke. Some of the fires are reported to be the work of careless hunters.

Two boys while hunting in the tulies on McNear's ranch, near Point Pedro, Monday, found the dead body of a man that had been washed in by the waves at high tide. It was that of a sailor, who belonged to some man-of-war, as he had the blue uniform of the Navy on. There was a piece of paper pasted on the breast of his overcoat, with the letters "C. S." written thereon. The letters "A. J." are in India ink on the right arm.

## THE RENO GAZETTE

For 1882 will be a better paper than it has ever been. It purports all the news from dispatches, and is thus placed many hours ahead of any other paper. It has always been the policy of the proprietors to make the *Gazette* a first-class local paper, and all accounts of interesting events in Reno, or Washoe county, or the State of Nevada. The resources of the country are carefully studied and written up by able correspondents, and the *Gazette* has done as much as all the other papers combined in this respect.

## THE WEEKLY GAZETTE

contains all the reading matter of the daily, without its advertising. It is an eight-page weekly newspaper, lettered, printed, and white paper. It has increased in an extraordinary manner in the last six months, and is now growing rapidly. Its interesting matter, crisp editorials and late news, make it popularly. The *Weekly Gazette* costs only half a dollar a year. It is given with the Bulletin, Chronicle, Examiner or Record Union, which cost about two dollars and fifty cents, and the *Journal* for four dollars and fifty cents a year, and with other papers in proportion. Send for sample copies.

H. H. Warner & Co., Rochester, N. Y.

My Dear Sirs: Until yesterday I had Kidney and Liver Cure has been used by both my wife and myself. She used it "on general principles," as a system and liver regulator; I took the medicine for a long-standing liver complaint, and it has relieved me of all inconvenience, and which failed to yield to the doctor's remedy, or any other, until I used your Safe Kidney and Liver Cure. With both units in pronouncing it to be the best medicine ever used, and in recommending it to others as a safe remedy.

THE "SCIENTIFIC AMERICAN"  
ALL RIGHT.

The Scientific American came out of the late fire in New York with renewed life. The subscription lists, account books, patent records, patent drawings and correspondence were preserved in massive fireproof safes. The printing was done in another building, consequently no interruption of business was occasioned.

The new offices are located at 261 Broadway, corner of Warren street, a very central and excellent situation. The new building fronts toward the City Hall, the Court-house, and the new Post-office—a magnificent structure, which cost eight millions to build. Nearly opposite, and a few hundred feet distant from the Scientific American offices, is the entrance to the great suspension bridge over the East river, between New York and Brooklyn, which required ten years to construct and twenty millions of dollars to pay for. In front are the New York Tribune, New York Times, New York Sun, New York World, New York Herald, Mail and Express, Zeitung and other offices.

If any of our readers should happen to make a new discovery, they have only to drop a line to Munn & Co., 261 Broadway, New York, who will reply at once, without charge, stating whether the invention is probably novel and patentable. A handbook of instructions, with full particulars, will also be sent, free.

### A DANGEROUS PLAYTHING.

Last Saturday afternoon, at Stockton, a boy of about 12 years of age was on Lindsay street, between California and Sutter, playing with a "toy pistol." A small black dog came trotting along, and the boy remarked, as he pointed the pistol at the animal, "I'm going to frighten that dog." He pulled the trigger, and the dog dropped dead, with a "toy" bullet through the brain. Had it been pointed at a human being the consequences would very likely have been equally as fatal. The lesson taught not long ago, when a little boy was shot by one of these "toys," nearly losing his life, should not be forgotten. The "toy pistol" danger is of sufficient importance to claim attention.

Several severe accidents have occurred here in the same way.

General Sherman, accompanied by General Pope and Colonel Morrow, will leave Washington, March 1st, on a tour of inspection to all the principal military posts in Texas, New Mexico and Arizona; also San Francisco.

Sullivan After Ryan Again.

NEW YORK, February 17.

Champion Sullivan writes the Herald, in which he says: Ryan dubs me a "slugger" and excuses his defeat by saying he was suffering from hernia, and had it not been for this and a variety of other reasons, he would have won the fight. Paddy considers he has been able to hold out for a few more rounds I would have "caved in." I will simply say to Mr. Paddy Ryan, if he has any desire to meet me again I will give him \$500 to spar me four rounds. Marquis of Queensbury rules, with soft gloves, at any of my exhibitions. If I do not succeed in stopping him in four rounds I will pay him the above-mentioned sum. I challenge him to spar me with boxing gloves, stating the number of rounds, the result to be decided by the greater number of clear hits. I will wager \$1,000 that I can beat him in a fight of this kind, the meeting to take place in New York, and the winner to take the admission receipts in addition to the stakes.

Dying of Starvation.

CHICAGO, February 17.

### EASTERN.

Blaine's Diplomatic Letter.

NEW YORK, February 17.

Our Minister at Paris, Morton, wrote the American Government that President Grevy was anxious, with England, to join in the mediation in Peru and Chili matters. Blaine wrote Morton in reply:

DEPARTMENT OF STATE, WASHINGTON, September 5, 1881. Sir: I have to acknowledge the receipt of your dispatch, No. 6, of date August 11, 1881, giving an account of your interview on the day previous with the President of the republic in regard to the attitude and correspondent relations of France, Great Britain and the United States, with the South American States, Chili and Peru. The remarks made and suggestions offered by President Grevy, concerning the situation of affairs in Peru, have received that careful and respectful consideration due to the utterances of so eminent a statesman and Chief Magistrate of France. I hasten to say that this Government agrees with him in profoundly deplored the disorders and sufferings that already have fallen upon, and others that continue to impend over the people of Peru, and fully share the humane and enlightened sentiments which have inspired in him his personal interest in that unfortunate struggle, and have induced him to suggest a concerted effort by France, Great Britain and the United States, to bring the conflict to an end. Such interventions are frequent in European diplomatic history, and have been sometimes followed by good results in preserving the equilibrium of power, but the United States has not belonged to that system of States of which France and Great Britain are important members, and has never participated in the judgment of their contentions. Neither interest nor inclination leads this country to wish to have a voice in the discussion of those questions, but our relation to States of the American continent are widely different, and the situation is so nearly reversed that this Government, while appreciating the high and disinterested motive that inspired the suggestion, is constrained to gravely doubt the expediency of uniting with European powers to intervene, either by material pressure or by moral or political influence in the affairs. These republics are young sisters of this government, their proximity of the situation and similarity in origin and form of government, and unity of political interest on all questions of foreign intercourse, and their geographical remoteness from Europe, have naturally given to American States close and especial relations to each other, and in the course of time removed them further from the European system. The interests, commercial and political, of the United States on this continent, surpass in power and extent those of any other power, and where these immense interests are concerned and this Government must preserve a portion of influence and will insist on independence in the contest between Chili and Peru. The United States has watched the progress of the struggle with painful interest, and endeavored, as opportunity offered, to arrange terms of peace, and will say to the French Government that while the interest which President Grevy has manifested for the cause of peace, and his sympathy with victims of this war find earnest response here, both from the Government and the people, the United States declines to enter into negotiations with European Powers nor joint intervention in the affairs of Chile and Peru. I have, etc., JAMES G. BLAINE.

A Society Fluster.

PEORIA, Ill., February 17.

The rumor that Miss Ida Farrell, of this city, who is visiting in Washington at the residence of Bob Ingersoll, is being paid particular attention by President Arthur is creating quite a flutter in social circles here. The story comes from a personal friend of the young lady's family, and is quite generally credited among her acquaintances. Miss Ida is the only daughter of one of Peoria's best known citizens. She is a blonde, of medium size, good looking, of graceful and stylish appearance, and well educated. For several years she was the belle of society here. She has quite a penchant for private theatricals, and on several occasions appeared in amateur entertainments, taking the leading female parts, sustaining her role quite creditably. A cousin of hers, Clinton Farrell, Jr., now a resident of Washington, is a brother-in-law of Ingersoll.

Hanged.

INDIANA, Pa., February 17.

J. G. Allison was hanged for the murder of his father to-day. The murderer was stolidly indifferent to his fate, and would not recognize his mother and sisters when they visited him in his cell. His only words were, "I've been fished here wrong."

Be Virtuous and You Will Be Happy.

PITTSBURG, PA., February 17.

Hon. A. W. Campbell, editor of the Wheeling Intelligencer, who became prominent in the Chicago convention because he would not vote for Conkling's resolution to support the nomin-

ee of the convention, has instituted proceedings at Wheeling for a divorce from his wife. One night last week he had arranged to leave Wheeling. He missed the train, whereupon he returned to the editorial room of his paper and worked until 3 o'clock in the morning, when he started home. He had hardly got the door of his dwelling opened when a man whisked past him, out of the house, with nothing on him but his under garments, and carrying his clothes in his arms. Mr. Campbell chased him into a livery stable two blocks away, and finally discovered the man crouched down in a dark corner of a stall. Drawing him out into light, Mr. Campbell jerked him to his feet. On recognizing him he said "Oh, it's you, is it? that's all I want to know," and walked away. Mr. Campbell went up to a hotel and spent the remainder of the night. The man whom he had run down in the livery stable was George K. Wheat, a leading merchant of Wheeling and one of the wealthiest men in the city. Mrs. Campbell is young, very beautiful and highly educated. Mr. Campbell married her about four years ago, when she was a teacher in a female seminary at Wheeling. She is his second wife. Her maiden name was Mary Hallowell. Mr. Wheat is married and has several grown up children, among them four accomplished daughters. The event is the talk of Wheeling, but owing to the prominence of the parties concerned, the papers of that city have refrained from mentioning it.

Military Academy Burned.

CHESTER, Pa., February 17.

In the Military Academy burned last evening were 143 cadets attending the academy. The young men succeeded in saving most of their personal effects. Much of the furniture, apparatus and libraries were gotten out. The building was four stories high, overlooking the city, and was built at an outlay of \$125,000 by a stock company in 1865. The loss is \$200,000, and insured for \$75,000. All the State and Government property were saved. Soon after the fire broke out a heavy rain began falling, which damaged much of the rescued property. The origin of the fire cannot be definitely ascertained, as the laboratory in which it was discovered contained nothing that would explode or ignite.

A Diplomatic Dinner.

WASHINGTON, February 17.

President Arthur gave his first State dinner last night at the Executive mansion to 37 guests, the heads and acting heads of the various foreign legations at Washington. It was the first White House dinner given by this administration, and the first dinner given to a diplomatic body in four years. The Executive mansion was thrown open and lighted throughout. The east room, where the President received the guests, and the remaining lower rooms were beautifully adorned with wreaths and flowers. The floral ship sent from Boston to President Garfield for his inauguration, freshly rigged and loaded with flowers, had a place of honor among the decorations of the dining table.

Suits Commenced.

HARRISBURG, Pa., February 17.

Secretary Dunkel, of the Department of Internal Affairs, has placed a list of 17 railroad companies doing business in this State in the hands of the Attorney-General, requesting him to proceed against them because of a failure to return to the Auditor-General their annual report within 30 days after the expiration of the financial year. The penalty for each road is \$5,000 fine.

Starling Figures.

WASHINGTON, February 17.

Commissioner Raum stated before the committee last night that the reduction of the tax on spirits of 90 to 75 cents per gallon would reduce the revenue \$10,000,000. The reduction of the tax on tobacco of from 16 to 12 cents, would cause a loss of \$5,875,000; on cigars, from \$6 to \$5 per 1,000, would reduce the revenue \$3,666,000.

Delivered This Morning.

CLEVELAND, O., February 17.

Mrs. Scoville's letter praying for forgiveness for her brother Guiteau, was delivered this morning to Mrs. Garland.

The New Wheat Route.

ST. LOUIS, February 16.

No less than \$20,000 bushels of wheat were sold yesterday and to-day for export. It goes to Liverpool via New Orleans.

FOREIGN.

Gladstone.

LONDON, February 17.

Gladstone, in the House of Commons yesterday, eloquently defended the Irish policy of the Government. Referring to his recent utterances respecting the Home Rulers, he declared he had simply repeated, regarding the local government for Ireland, what he had often said, that the supremacy of the British Parliament must be maintained. The country cannot give Ireland what it cannot give Scotland.

Railway Wanted.

MADRID, February 17.

At a banquet given by the West Indian Senators and deputies to the Minister for Colonies warm congratulations passed on the decision of the Government to favor the construction of a central railway. The Minister declared that he would present in the Cuban budget tariff reforms and plans for the consolidation of the debt when Cortes meet in April.

WESTERN.

An Appeal from the Mormons.

SALT LAKE, February 17.

The following is a memorial of the Legislative Assembly of the Territory of Utah:

"To THE HONORABLE, THE SENATE AND HOUSE OF REPRESENTATIVES, IN CONGRESS ASSEMBLED: — Whereas, There are now pending in the Senate and House of Representatives of the National Congress, bills having in view the disfranchisement of citizens in Utah, and the appointment of Commissioners wholly irresponsible to the people, but empowered to legislate for and territory; and, whereas, we have deeply at heart the interests of peace and the general prosperity now prevailing throughout the Territory, the interest of freedom and loyalty, of justice and humanity, the interests of an industrious, happy people, whose quiet homes are gladdened with the voice of daily praise, and who, having sumpt towards none, but feel a good will to all; in the interest of charity, love, religion, and by the cherished memory of Washington, Adams and Jefferson; in the name of the declaration of rights which cost so much precious blood, the broad provisions of the Constitution, and glorious Stars and Stripes, so often baptised in fire, we desire to explore the Congress of our great nation to pause, reflect and investigate, before responding to the wild, unreasoning pressure of public opinion, wrought up by misguided and misinformed religious influences, the promoters of which wish to rivet upon the limbs of citizens in Utah the chains of slavery. Now, therefore it is resolved, by the Council and House of Representatives of the last Legislature of Utah, that we do most heartily recommend Congress not to act hastily upon extreme measures, radical in application, but to appoint a committee of honorable gentlemen to come to Utah, empowered to send for persons and papers, and otherwise authorized to fully investigate the affairs of the Territory, the citizens thereof, and every matter bearing upon the questions at issue, and as in duty bound your memorials will ever pray. Adopted February 16, 1882.

A House and Three Persons Carried into Russian River by a Land Slide.

SAN FRANCISCO, February 17.

Through private sources it is learned that a sad occurrence took place on Sunday morning at Cuffy's Cove, on Russian river, involving the death of Mrs. Hannah Johnson and her baby and a white man employed as cook. Mrs. Johnson's husband, Charles L. Johnson, is an engineer at Moore & Smith's lumber mills at Cuffy's Cove. His family consisted of his wife and an infant one month old and they occupied the upper portion of a two-story house, situated on the bank of the river, not more than 20 feet from the edge and at the foot of a hill. The ground had become soaked by the recent heavy rains. About 9 o'clock Sunday morning, while the men were working among the logs, they discovered indications of an impending land slide. Two of them ran as fast as they could to give an alarm to the persons in the house and assist them in escaping. There were but three persons in the house at the time. Before the men reached the house a large tract of land suddenly started in front of them and slid down the hill, carrying the house with it into the river. The house turned completely over and the three inmates were engulfed. The body of the cook was discovered the same evening. Those of Mrs. Johnson and her baby have not yet been found.

## NOTICES.

Diamond O tea is selling well.  
It is snowing all the way to Dutch Flat.

"Our Taste" hats, the finest in the market, always at J. K. Everett's.

E. Meyer asks you to call and see if he hasn't the nicest smoker's goods in Reno.

A middle-aged lady can find work by applying to Dr. Wager. See 50c. column.

Bird seat at Nasby's Bazaar. The thermometer at 7, 9, 11, 1 and 3-20, 25, 34, 34, 31.

The carpenters finish at the asylums this evening. A few days will wind up the painting, and the building is done.

J. M. Hayck has a child sick with diphtheria. It was credited to Payne. Al. Lyman has no child sick; it is the hired girl. The discrepancies crept in inadvertently.

Professor Cara is in town. He came down from Virginia to tune the pianos at Bishop Whitaker's school for the rehearsal to-night, and to give the echoes in Tunyson's bugle song.

Sheriff Cash Thomas, Lander county, arrived in Carson yesterday morning, having in charge, one John Triggs, convicted of assault to do bodily injury, sentenced to one year's imprisonment.

D. B. Nye, with Sroufe & McCrum, San Francisco, came to Reno on his way home from a very successful northern trip. Mr. Nye reports business of all kinds good in northern towns.

"I will take my chances on getting rid of this rheumatism," said our canary neighbor; and half an hour later he could be found diligently rubbing his offending and painful members with that famous pain-eradicator, St. Jacobs Oil. He knew what was good.

The authorities owe it to the town to compel the owners of the lots between the Pyramid House and the V. & T. track to cover up the wall and cellar holes, or fence the lots. They now stand open on the level with the ground around, and are from four to twenty feet deep.

## California Ship Building.

On Wednesday there was launched from the shipyard of Dickie Bros. the steamer Mexico, the largest steamship ever built in California. She is 285 feet long, 36 feet beam, and 20 feet deep, and is of 2,000 tons burden. The hull of the steamer, which is of Oregon pine, cost \$125,000, while she will cost when complete, \$250,000. The steamer will make about thirteen miles an hour. She will pit between here and Mexican ports.

The same firm has at present on the stocks a whaling brig and a barkentine upon which about 110 men are employed. Contracts for the building of three schooners and a three masted schooner have been signed, and their construction will be entered upon at once. The timber used comes from Oregon, and is the best on the coast for that purpose.

## The Best in the Market.

FOND DU LAC, Wis., Aug. 3, 1881.

H. H. WEAVER & Co.: Sirs—I regard your Safe Kidney and Liver Cure the best remedy in the market for kidney and liver diseases.

## The Best in the Market.

The vocal chorus, "The Gypsy Girls," will be rendered to-night by eight young ladies in full-gypsy costume, under Miss Quaife's direction. If you want to secure a seat get a ticket at Allen's, Nasby's or the Post-office before 5 o'clock.

## The Trade Increasing.

The Reno Independent of the fourteenth says: John Ainley, today, shipped another car-load of barley to San Francisco.

## From Him Along.

The Eureka Leader says: The many open-pursed citizens of the Base Range will be somewhat chagrined at the announcement of the departure, yesterday morning, for parts unknown, of Mr. Andrew Jackson. For some time past Jackson has been dealing games that have not met the approval of the half-inebriated individuals who bucked against them. Jackson's forte, however, seemed to be poker. He was never known to lose a dollar at the mysterious little game, and during the past six months has won and kept from \$3,000 to \$5,000. A few weeks ago he gave out that he would shortly visit his play-ground in Sweden, and on the strength of his good luck, and the knowledge that he possessed several thousand dollars, borrowed \$300 from a legal gentleman here to send to the old man." But this was not his only call on friends, for \$2,000 will not cover the various amounts, ranging from \$300 to \$800, he had in Jackson bilked every man he could call a friend or acquaintance, not even excepting his landlady, who was left with a vacant room and empty pocket-book.

The sporting fraternity is particu-

larly bitter in its denunciation of Andrew Jackson. The sports declare that Jackson would even ignore debts of honor, while all the time possessing ample funds. Mr. Andrew Jackson is of medium height and build, is about thirty years of age, blonde hair and mustache (the latter rather thin), speaks broken English, and wears a fur cap. His complexion is light, and, altogether, he would be taken for an unsophisticated youth, that is, if he didn't open his mouth. That fur cap is generally worn straight on top of his Saxon head, but his overcoat hangs jauntily from a pair of shoulders that are rather narrow, which gives him a "killing" appearance and makes him easy to recognize.

THE SUN.

NEW YORK. 1882.

**THE SUN** for 1882 will make its fifteenth annual revolving under the present management, shining, as always, for all, big and little, mean and gracious, contented and discontented, honest and dishonest, brave and vicious, intelligent and ignorant. The Sun's light is for mankind and woman-kind of every sort; but its genial warmth is for the good, while it pours hot discomfort on the blistering backs of the persistently wicked.

The Sun of 1882 was a newspaper of a new kind. It discarded many of the forms, and a multitude of the superfluous words, and places of the ancient journals. It was simple, direct, frank, unadorned, unostentatious, in a free, frank, uncooperative way, all the news of the world, omitting no event of human interest, and commanding up-to-date affairs with the keenness of absolute independence. The secret of that experience lies in the success of **The Sun**. It caused a permanent change in the style of American newspapers. Every important newspaper established in this country in the dozen years past has been modeled after **The Sun**, every important journal already existing having been modified and bettered by the force of **The Sun's** example.

**The Sun** of 1882 will be the same outspoken, true-telling and interesting newspaper.

The Sun is of the mean which an abundant prosperity affords, we shall make it better than ever before.

We shall print all the news, putting it into readable shape, and measuring its importance, and the value of its information, not by its real interest to the people. Distance from Printing House Square is not the first consideration of **The Sun**. Whenever anything happens worth reporting we get the particulars whether it happens in Brooklyn or Bohemia.

In politics we have decided opinions; and are accustomed to express them in language that can be understood. We say what we think, and nothing more or less. That is the only secret of **The Sun's** political course.

The **WEEKLY BULLETIN** gathers into eight pages the best matter of the seven daily issues. An Agricultural Department of unequalled merit, a Weather Bureau, and a host of other departments of literary, scientific and domestic intelligence complete the **WEEKLY BULLETIN**, and make it the best newspaper for the farmer's house.

If our idea of what a newspaper should be pleases you, send for **The Sun**.

Our terms are as follows:

For the daily Sun, a four-page sheet of twenty-four columns, the price by mail, post-paid, is 50 cents a month, or \$4.50 a year; or, including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 60 cents a month, or \$7.70 a year, postage paid.

The Sunday edition of **The Sun** is also furnished separately at \$1.20 a year, postage paid.

The price of the **WEEKLY BULLETIN**, eight pages, six months, is \$1 a year, postage paid. For clubs of ten sending \$10 we will send an extra copy free.
